## Professional Experience

### Web Designing

As a web designer, I specialize in creating visually appealing and user-friendly websites through expertise in design, coding, and accessibility, contributing to successful team collaborations.

### Web Development

In my role as a web developer, I've specialized in crafting websites and web applications, excelling in both front-end and back-end development. I collaborate closely with web designers to translate design concepts into seamless user experiences

### Mern Stack

- Coupled with my expertise in full-stack development using the MERN stack, I've specialized in utilizing MongoDB, Express, React, and Node.js to build and maintain web applications. My experience encompasses implementing and optimizing these technologies to create robust and efficient solutions.

### Cloud Computing

- In cloud computing, my experience includes utilizing Amazon Web Services (AWS) to architect, deploy, and maintain scalable and reliable cloud-based solutions. I have optimized AWS resources, ensured security, and effectively used a variety of AWS services for diverse project needs.
