PROJECT MANAGER

PROJECT MANAGER AT TRUSTECH IT SERVICES (www.trustechsol.com) company known for its ability to provide and deliver project to national and international clients.

WEBSITE APPLICATION IN PHP:

I developed a web application for my final year project at the university, which was built using PHP and named "FACULTY FINDER". Its functionality was such that there was a QR code placed outside the office of each teacher, which was generated through software. Students would go and scan that QR code using their mobile phones, and all the assignments or class materials uploaded by the teacher would be made available on all students mobiles. There was also a download section available in the application
In this project , I used HTML, CSS, Bootstrap, JavaScript, PHP and MySQL
