## HR Department

FF Steel

Lahore

Respected Sir,

I am really interested in the opportunity to work as Head of R&R in FF Steel. With an experience of 28 years in leading supply chain operations and project management at various cities for the Pakistan army including more than 3 years as Asst Dir Marketing and Procurement at HIT Taxila, I'm confident I am a good fit for the position. Being dedicated to my work, I always satisfied my superiors with my work.

My past experiences regarding procurement, sourcing and leading cross functional teams, cutting costs and working to increase productivity through expert business management would notably benefit the Organization.

In my previous years, commanding Army Stores Inspection Depot, Asst Dir in GHQ. Heading these positions I got the chance to work on logistic operations, quality control and oversee organization's supply chain process (details mentioned in Experience).

Last but not the least, I have also been obliged by handling largest mechanisation project of Ordnance Installations for effective supply chain at GHQ. It included all from selection of equipments, its availability and timely installation within limited budget in 2019 (Details in Experience).

I would welcome the chance to discuss your corresponding objectives and also show you how my experience can be reapplied in FF Steel Lahore.

Sincerely,

Lt.Col (R). Noman Shabbir, TI(M).
