SKILLS

Mobile App Development (Flutter):
Currently in the process of mastering Flutter, a dynamic framework for cross-platform mobile app development using Dart. Actively engaged in developing skills in app development. Proficient in basic app structure, UI design, and widget implementation.
Firebase Authentication (Google/Facebook Sign In):
Can implement secure user authentication using Firebase Authentication, with a focus on seamless integration with Google and Facebook sign-in methods.
Firebase Database:
Proficient in utilizing Firebase Database to seamlessly manage and synchronize real-time data.

MAIN PROJECTS

CHATTING APP

Successfully designed and implemented a feature-rich cross-platform chatting application using Flutter and Dart. Key features include:
Real-time Messaging
Media Sharing
Google/Facebook Authentication
Cloud Storage
Push Notifications

HOSTEL FINDER APP (FYP)

Developed a comprehensive Hostel Finder App as the final year project, addressing the accommodation needs of students in remote areas. Key features include:
Rooms Reservation System
Google Maps Integration
Reviews and Ratings
Favorites Feature
Apart from that, I am also actively engaged in various small projects to further enhance my skills and expertise.
