OBJECTIVE

To serve a dynamic organization with the professional environment that offers excellent opportunities in terms of career and rewards, hard work and creative flair growth and thereby contributes to the success of the organization

INTEREST AND KEY DOMAIN

From start, my key interest is in web development with new Technologies. I'm beginner now, and wanted to learn and grow more with hands on experience. Key grip on Front-end development such as HTML, CSS and basic JavaScript. Knowledge of version control system Git.

C#.NET and ASP.NET Programming are also among the list I'm also familiar with cutting edge technologies such as cloud Computing, Microsoft Azure and GCP
