PROJECTS

[Current]

Car Prime The CarPrime Service and Maintenance app is a comprehensive solution that simplifies vehicle upkeep for consumers.

Cannabis The application aims to facilitate responsible cannabis consumption by providing clear, accessible information on legal consumption zones, thereby ensuring compliance with local laws and community standards.

Lusyl Accidents can cause significant disruptions in lives, leaving individuals searching for reasons and accountability. While no one intends to cause an accident or desires to be labeled a killer, accidents happen. LUSYI aims to change this by continuously monitoring the locations of humans and vehicles. By leveraging mobile devices and wearables, LUSYI provides real-time alerts and guidance to prevent potential tragedies. LUSYI's mission is to save lives by offering immediate knowledge and intervention. In healthcare, the goal is to maintain life rather than merely postpone death. Accidents, unpredictable by nature, occur without warning or reason. LUSYI strives to provide critical information in those vital seconds after an accident, ensuring that emergency responders

can deliver the best possible care during the "window of life."
Simply put, LUSYI is dedicated to saving lives by preventing accidents and enhancing emergency response efforts

Patrol Pal - Mobile application for the police officers
- Admin Panel
This application is for facilitating the police officer’s lives through better way of communication, documentation and note keeping and thus sharing information amongst fellow officers and citizens if required,
It overall gives a seamless experience of the right and secure way of operation handling at the police station department to make work life super easy.
