SKILLS

C++ Programming:

2.5 years' experience in C/C++ software development. I think C/C++ is interesting for its complexity and applicability in almost all spheres. I'd like to work on interesting projects with a focus on performance

and new features where I can use the full power of the C/C++ language.

Flutter:

- Design and build high-performance, scalable mobile applications using Flutter.
- Ensure robust and effective cross-platform functionality on both Android and iOS.
- Collaborate and communicate effectively with cross-functional teams to define, design, and ship new features.
- Maintain and improve code quality, organization, and automatization.
- Stay updated with and adapt to the latest trends in Flutter development.
- Work closely with the UI/UX team to ensure aesthetic and functional designs.
- Troubleshoot and solve problems in application performance and functionality.
